ICU Neurological Evaluation Note

SYNTHETIC DOCUMENT - generated for software testing, not a real patient record

Case ID	SYN-0021	**Age / Sex**	46 / F
Setting	Intensive Care Unit	**Primary dx**	Brain death after aneurysmal SAH

Reason for evaluation

Absent neurological activity 48 hours after catastrophic subarachnoid hemorrhage with refractory intracranial hypertension.

Clinical background

Presented with thunderclap headache and collapse; poor-grade aneurysmal SAH (Hunt-Hess 5). External ventricular drain placed, ICP progressively refractory to medical therapy, decompressive craniectomy declined by family after neurosurgical counseling. Bilateral dilated fixed pupils from day 2.

Preconditions

Core temperature 36.8 C, MAP 82 mmHg, no sedatives or neuromuscular blockers (levels checked), sodium and glucose normal, no severe acid-base disturbance. Established irreversible cause shown on CT.

Examination

Deeply comatose and ventilated. Pupils fixed at 6 mm. Absent corneal, oculocephalic, oculovestibular, cough and gag reflexes. No motor response to central painful stimulation. No spontaneous respiratory effort.

Glasgow Coma Scale

No eye opening. Verbal not testable (intubated, scored 1T). No motor response to pain.

GCS at time of evaluation	Score	Response
Eye opening (E)	1	None
Verbal (V)	1T	Intubated (T)
Motor (M)	1	None
TOTAL GCS		**3T**

Investigations

CT head: diffuse cerebral edema, loss of gray-white differentiation, effaced basal cisterns, tonsillar herniation. Apnea test: no respiratory effort with PaCO2 above 60 mmHg and pH below 7.30. CT angiography: no intracranial opacification.

Assessment

Brain death (determination of death by neurological criteria) after clinical examination, apnea test, and confirmatory imaging, performed according to national protocol by two independent physicians. GCS 3T.

Plan / disposition

Time of death recorded. Family informed and supported. Donation coordinator contacted per local pathway; consent process led by the transplant coordinator. Organ-supportive care continued only if donation proceeds.
