Emergency Department Note

SYNTHETIC DOCUMENT - generated for software testing, not a real patient record

Case ID	SYN-0022	**Age / Sex**	68 / M
Setting	Emergency Dept / ICU	**Primary dx**	Moderate accidental hypothermia

Chief complaint

Found lying outdoors in winter, confused and shivering stopped.

History of present illness

Homeless man found by outreach workers in the early morning after a night at -4 C. Wet clothing. Unknown time of exposure, estimated 8-10 hours. Small amount of empty alcohol bottles nearby.

Past history / medications

Unknown. Alcohol use disorder reported by social services.

Examination

Core temperature 28.4 C, HR 44 sinus bradycardia, BP 90/55, RR 8. Cold, pale skin, no shivering. Dilated sluggish pupils. Muscle rigidity, normal reflexes. No head trauma.

Glasgow Coma Scale

Eyes open only to pain. Mumbles inappropriate single words. Motor: withdraws from painful stimuli.

GCS on arrival (temp 28 C)	Score	Response
Eye opening (E)	2	To pain
Verbal (V)	3	3 - Inappropriate words
Motor (M)	4	Withdraws from pain
TOTAL GCS		**9**

GCS after rewarming (temp 36.5 C)	Score	Response
Eye opening (E)	4	Spontaneous
Verbal (V)	4	4 - Confused
Motor (M)	6	Obeys commands
TOTAL GCS		**14**

Investigations

ECG: Osborn J waves, prolonged QT. Potassium 3.4, glucose 3.2 mmol/L, lactate 2.8, CK 1800. Blood alcohol 1.4 g/L. CT head: no injury.

Assessment

Moderate accidental hypothermia (swiss stage II-III) with depressed consciousness, GCS 9. No evidence of head injury.

Plan / disposition

Gentle handling, remove wet clothes, active external and internal rewarming (warmed IV fluids, forced-air warmer), glucose correction, thiamine, cardiac monitoring. Core temp 36.5 C at 9 h and GCS 14. Admitted to the medical ward, social work referral.
